

We've been
helping
Tasmanians
fix problems
for over 35
years.

To provide our independent advocacy
service we receive funding from:

Australian Government

Advocacy Tasmania

We fix problems.
Big or small.

Our service is free,
confidential and
statewide.

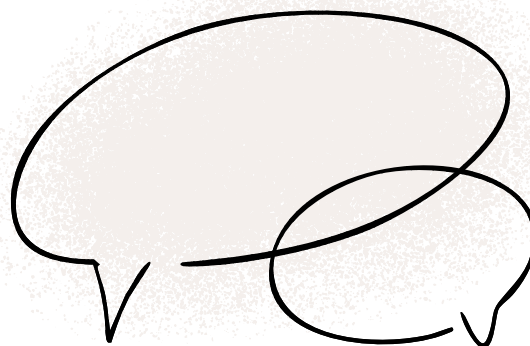

www.advocacytasmania.org.au

We can help, if you are:

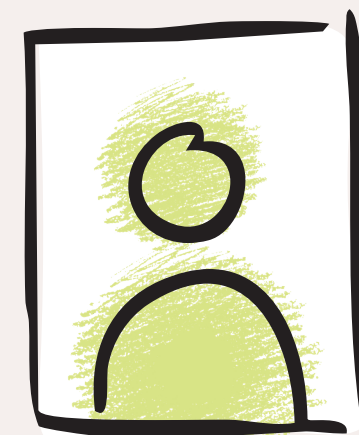

-  An older person.
-  A person with disability.
-  A person with a mental health condition.
-  Using alcohol or drugs.

Please get in touch,
and see how we can help.

We know how things work and how to get results.

Whether it's getting services you're entitled to, making a complaint, fixing problems or changing things that just don't feel right.

Our advocates will listen to you and give you information and options. They can support you to fix your problem or they can act on your behalf if that's what you prefer. You control how little or how much we do!

You can count on our advocates being in your corner and working only for you.
